PROFESSIONAL SUMMARY

Frontend Developer with hands-on experience building and deploying responsive, accessible e-commerce and web applications using Next.js, React, TypeScript, Tailwind CSS, and Shopify (Liquid). Built two Shopify Online Store 2.0 storefronts and six complete web applications from concept to deployment. Skilled in responsive UI, accessibility (WCAG), SEO, automated testing, and practical frontend problem-solving. Seeking a remote frontend or Shopify development role where I can contribute and keep growing.

Availability: 12:00 AM - 9:00 AM Philippine time (9:00 AM - 6:00 PM US Pacific).

CORE SKILLS

Frontend: React, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

Shopify & E-Commerce: Shopify Online Store 2.0, Liquid, JSON templates, custom sections, metafields and metaobjects, product variants, Ajax cart, collection filtering, Shopify CLI, Theme Check

Testing & QA: Vitest, Playwright, Testing Library, axe-core

Web: Responsive Design, Accessibility (WCAG 2.2 AA), SEO, Web Performance, Core Web Vitals

Backend & Data: Next.js API Routes, REST APIs, PostgreSQL

Tools: Git, GitHub, GitHub Actions (CI/CD), Vercel, Netlify, Chrome DevTools, ESLint, AI-assisted development workflows

SHOPIFY PROJECTS

Shopify Theme Developer - Independent Portfolio Builds

Remote | 2026 - Present

Two Shopify Online Store 2.0 storefronts built end to end with Liquid, JSON templates, HTML, CSS, and JavaScript, focused on responsive design, accessibility, and SEO.

FurBuddies - Pet-Supplies Storefront

Shopify Online Store 2.0, Liquid, JavaScript

- Built a custom Shopify theme (Horizon base) with merchant-editable Liquid sections: a cross-fade hero, a benefits/trust bar, and a collection banner with product filtering and sorting.
- Developed fade-on-hover product cards, a rotating announcement bar, metafield-driven review stars and product accordions, and an Ajax demo cart with add, update, and remove.
- Seeded a demo catalog of 24 products across 8 collections; implemented WCAG AA contrast (4.68:1), prefers-reduced-motion support, and inert hidden slides. Homepage is axe-clean with Lighthouse Accessibility 0.97 / SEO 1.00.

Alegria - Furniture & Interiors Storefront

Shopify Online Store 2.0, Liquid, JavaScript

- Built a Dawn-based Shopify theme with custom hero, editorial, values, testimonials, journal, and product-specs sections across 13 JSON templates.
- Implemented product variants with variant-specific imagery, 3-image galleries, product metafields, a reusable "Material" metaobject, native collection filtering and sorting, and an Ajax cart drawer.
- Seeded a demo catalog of 16 products across 5 collections. Theme Check reports 0 errors; axe-core is clean on home, collection, and product pages; Lighthouse Accessibility 100 / SEO 92.

PROJECTS

Emerald Garden - E-Commerce Storefront

Next.js 16, React 19, TypeScript | emerald-garden.vercel.app | github.com/jewelcruzs0922-dev/emerald-garden

- Built a responsive storefront with browsing, cart, checkout, and order flows across 10 product pages and 7 API routes.
- Implemented server-side price validation and stock reservation to prevent overselling; payments sit behind a provider interface (mock + Stripe) with HMAC webhook verification.
- Wrote 57 Playwright end-to-end tests and 28 unit tests, including accessibility checks (focus order, contrast, skip link) enforced in CI.

TagPricePH - Price Comparison Platform

Next.js, TypeScript, PostgreSQL, Tailwind CSS | tagpriceph.vercel.app | github.com/jewelcruzs0922-dev/TagPricePH

- Built a Filipino price comparison platform with a comparison UI, typo-tolerant search, price-history charts, and a token-gated admin on Neon PostgreSQL with 14 migrations and 8 API routes.
- Designed provider, normalization, matching, and database layers and wrote 20 automated verification suites covering schema, security, matching, and data freshness.

ComputePH - Filipino Calculator Platform

Next.js, TypeScript, Vitest | computeph.vercel.app | github.com/jewelcruzs0922-dev/ComputePH

- Built and deployed 12 calculators (SSS, PhilHealth, Pag-IBIG, income tax, 13th month pay, loans) as reusable TypeScript engines with 274 passing unit tests.
- Implemented static SEO pages with JSON-LD, a sitemap, and per-page metadata.

HIRO - E-Bike Landing & Checkout

Next.js, TypeScript, Tailwind CSS, Framer Motion | hiro-azurite2.vercel.app | github.com/jewelcruzs0922-dev/HIRO

- Built a landing page with a three-bike configurator, a slide-over cart (dialog semantics and focus trap), and a full checkout flow through order confirmation.
- Wrote 48 unit tests plus Playwright end-to-end tests across desktop and mobile, with axe-core accessibility checks (WCAG 2.1 A/AA) enforced in GitHub Actions CI; Lighthouse performance 95 on mobile.

Redwood Retreats - Cabin Rental Site

Next.js, Canvas API, Tailwind CSS | redwood-retreats.vercel.app | github.com/jewelcruzs0922-dev/redwood-retreats

- Built a cabin rental site with a Canvas animation paused off-screen via IntersectionObserver, hydration-safe particles, a keyboard-navigable lightbox (Escape/arrows), and an accessible FAQ with aria-expanded and FAQ JSON-LD.
- Wrote 41 unit tests.

Cosmic Ray Solar - Solar Installer Website

Next.js 16, Vitest, Playwright | cosmicray-solar.netlify.app | github.com/jewelcruzs0922-dev/cosmicray-solar

- Built 19 page routes and 5 API routes including a shop, blog, case studies, six city pages for local SEO, a persistent cart, and a quote estimator.
- Wrote 59 unit tests enforced in CI.
